*"Build your pro-
duct with integrity...
stand behind it
100% and success
will follow."*

George G. Blaisdell

"It is a rare thing in these days of planned obsolescence for a product to grow in appeal as its design remains relatively unchanged. The ZIPPO lighter is such a product. It has become a classic symbol of American quality, ranking with the model-T Ford, the Singer sewing machine and a few others.

The Zippo Manufacturing Company was founded in Bradford, Pennsylvania when our father, George G. Blaisdell, set out to create a "lighter that works." He guaranteed the new lighter to "work always or Zippo will fix it free."

The year was 1932 and the original design has changed only to improve the product or the method to manufacture it.

The Zippo lighter is not only an American classic, it reflects the "three Rs" of conservation - reduce, reuse and recycle. Because it is refillable, the Zippo does not contribute to the waste stream as disposable lighters and matches do. Our guarantee assures that a Zippo never need to be discarded because we will fix it at no cost to the owner. Zippo's packaging and fluid containers are also recyclable.
